

**Lyndon B. Johnson Space Center  
Houston, Texas**

**Certificate of Authenticity**

**Expedition 2  
International Space Station**

The accompanying copy of a page from the book *Bold Endeavors* was carried in the personal notebook of Jim Voss, crewmember of International Space Station Expedition 2. This and copies of other recommendation pages from the book were carried to provide reference on good expedition behavior. The crew launched on the Space Shuttle *Discovery* on March 8, 2001 and flew to the International Space Station. They remained on board until August 21, 2001, and then returned to the Earth at the Kennedy Space Center, Florida. The page traveled on board the Space Station a total of 71 million miles in 2,672 Earth orbits.

Presented with thanks to

**Jack W. Stuster**

A handwritten signature in blue ink that reads "Jim Voss". The signature is stylized and cursive.
